**Interserve's finest**

Environmental washroom consultancy, Green Planet Solutions ([www.greenplanetsolutions.co.uk](http://www.greenplanetsolutions.co.uk)) scooped the prestigious title of 'Supplier of the Year' at the Interserve 'Best of the Best' awards.

The inaugural awards ceremony was held at the Crowne Plaza in Birmingham on Thursday 28th February to recognise the best of the best within Interserve's workforce and suppliers.

On choosing the winner, Interserve PLC stated that innovation and sustainability are two of their main considerations when choosing a supplier and it was important that neither should be at the expense of service, value or performance. Due to the services provided by Green Planet Solutions that covered all of these requirements, Interserve felt that the company deserved recognition.

Matt Anderson, Managing Director of Green Planet Solutions was delighted that the company's work had been recognised by such an established industry figure. He said:

'It's great to win this award, especially when we are such a young company. It shows that environmental issues are becoming increasingly important for businesses. Our partnership with Interserve has already helped us to make a big difference and we have really appreciated their receptiveness and support which has been a key element of our success to date.'
