Dear Kelly

Crewe and Nantwich Direct Services and Veltia dryers

Just a quick note on our use of the blown air dryers you supplied to us. We fitted the Veltia dryer in our men's toilets in Direct Services offices, and it soon proved very popular- not least with the cleaner who no longer had to clear out heaps of used paper towels each day! We then also purchased the dryers for our public toilets at Nantwich Market and again they have received many complements from traders and general public. Next we are putting one into the ladies' at our offices and hope to spread their use further through the Council's buildings.

It's still too early to assess savings but the driers have considerable value as reminders to everyone of the need to be conscious of their carbon footprint.

Yours sincerely

Paul Burns
